Synthmaster Club Sequences Vol.1

Thank you

for purchasing "Synthmaster Club Sequences Vol.1" for KV331' Synthmaster.

Synthmaster Club Sequences Vol.1 is a set of sequences and sounds for KV331's virtual software synthesizer synthmaster version 2.6.9. or above.

With the release of this set, we continue our story making sequences for today's powerful software synthesizer, KV331's synthmaster is one of these powerful synthesizer, using sequences and onboard modulations to have a lot of fun and great sequences.

We created over 50 new sounds and 50 sequences for your next track,
as a bonus, you get 20 Arpeggios and 20 bass sounds we made, as we created this set.

This set is a must for all user who are making club tracks, minimal techno, house, electro house, deep house or simply bass music.

We hope you have fun using the sounds...
